

Incentives that power savings

LARGE COMMERCIAL & INDUSTRIAL SOLUTIONS

Entergy Louisiana's Large Commercial & Industrial Solutions program offers financial incentives for qualifying energy-efficient equipment and facility upgrades. Explore available opportunities to reduce project costs, improve performance and achieve lasting energy savings.*

Retrofit lighting

Requires ENERGY STAR® certification or DesignLights Consortium (DLC) qualification unless otherwise noted.

Receive **\$0.50 per watt reduced** for qualifying lighting upgrades, including:

- High-performance T8 relamp/reballast
- Reduced-wattage T8 relamp/reballast
- Permanent delamping
- T5HO high-bay fixture
- New fixtures containing HPT8, RWT8, T5 or T5HO lamps and qualifying electronic ballasts
- LED exit signs†
- LED reach-in freezer or cooler
- TLED lamp replacement
- Interior LED retrofits
- New interior LED fixtures
- LED high-bay fixtures
- LED parking garage fixtures (new or retrofit)
- Exterior LED parking lot, gas canopy, area, flood, wallpack or retrofit kits

Receive **\$10–\$40 per control** for qualifying lighting controls.‡

New construction lighting

Requires products to meet applicable Consortium for Energy Efficiency (CEE), DLC or ENERGY STAR requirements.

Upgrade	Incentive	Unit
Achieving at least 15% reduction of watts installed from ASHRAE 90.1 2010	\$0.50	Watts reduced

Unitary HVAC

Upgrade	Incentive per ton	
Air conditioners and heat pumps (cooling mode) – unitary and matched split systems	Tier 1	Tier 2
Air conditioners and heat pumps (cooling mode) – water-cooled	\$15–\$75 \$40–\$90	\$20–\$100 \$65–\$115
Air conditioners and heat pumps (cooling mode) – evaporative-cooled		

HVAC chillers – single-speed chillers

Upgrade	Base incentive	Performance incentive per ton‡
Air-cooled chiller with condenser	\$20	\$4
Water-cooled screw and reciprocating chiller	\$20	\$2–\$4
Water-cooled centrifugal chiller	\$20	\$2–\$4

HVAC chillers – variable frequency drive (VFD)-controlled chillers

Upgrade	Base incentive	Performance incentive per ton‡
Air-cooled chiller with condenser	\$15	\$5
Water-cooled screw and reciprocating chiller	\$15	\$5
Water-cooled centrifugal chiller	\$15	\$5

* Incentives are capped at 50% of the total project cost.

† ENERGY STAR or DLC certification is not required.

‡ Performance incentive will be capped at \$175/ton for air-cooled VFD chillers and \$125/ton for water-cooled VFD chillers.

Variable frequency drives

Building exhaust fan	Make-up air fan		HVAC return air fan	Heat water pump	
Cooling tower fan	HVAC supply air fan		Chilled/condenser water pump	WS heat pump circulation loop	
Horsepower	Incentive	Unit	Horsepower	Incentive	Unit
2	\$180	VFD	25	\$1,440	VFD
3	\$240	VFD	30	\$1,680	VFD
4	\$300	VFD	40	\$2,220	VFD
5	\$390	VFD	50	\$2,760	VFD
7.5	\$600	VFD	60	\$3,300	VFD
10	\$780	VFD	75	\$4,200	VFD
15	\$840	VFD	> 100 HP	\$55	HP
20	\$1,110	VFD	> 200 HP	Requires custom application	

Commercial refrigeration

Upgrade	Incentive	Unit
Anti-sweat heat controls	\$50	Unit
Reach-in door closer: cooler	\$45	Unit
Reach-in door closer: freezer	\$50	Unit
Strip curtains for walk-in coolers and freezers	\$5	Sq. ft.
Evaporator fan controller on existing shaded-pole motor	\$35	Motor

Commercial kitchen – electric food-preparation equipment

Requires ENERGY STAR or CEE certification.

Upgrade	Incentive	Unit
Open deep-fat fryers	\$150	Unit
Large-vat fat fryers	\$210	Unit
Steam cookers: 3–6 pans	\$1,200	Unit
Insulated holding cabinets: full-size cabinets	\$480	Unit
Insulated holding cabinets: three-quarter-size cabinets	\$360	Unit
Insulated holding cabinets: half-size cabinets	\$240	Unit
Griddles: 2–4 linear feet	\$210	Unit
Convection ovens: half- and full-size	\$240	Unit
Combination ovens: 1–99 pans	\$1,800	Unit

Commercial kitchen – refrigerators and freezers

Requires ENERGY STAR certification.

Upgrade	Incentive per unit
Solid door reach-in refrigerators: < 15 cubic feet	\$30
Solid door reach-in refrigerators: 15–29 cubic feet	\$45
Solid door reach-in refrigerators: 30–49 cubic feet	\$75
Solid door reach-in refrigerators: ≥ 50 cubic feet	\$150
Solid door reach-in freezers: < 15 cubic feet	\$65
Solid door reach-in freezers: 15–29 cubic feet	\$150
Solid door reach-in freezers: 30–49 cubic feet	\$335
Solid door reach-in freezers: ≥ 50 cubic feet	\$450
Glass door reach-in refrigerators: < 15 cubic feet	\$85
Glass door reach-in refrigerators: 15–29 cubic feet	\$85
Glass door reach-in refrigerators: 30–49 cubic feet	\$85
Glass door reach-in refrigerators: ≥ 50 cubic feet	\$115

Commercial kitchen – ice machines

Requires ENERGY STAR certification.

Upgrade	Incentive per unit
Ice machine: < 450 lb. per 24 hours	\$60
Ice machine: 450–1,000 lb. per 24 hours	\$72
Ice machine: > 1,000 lb. per 24 hours	\$120

Plug load

Upgrade	Incentive	Unit
Smart power strips	\$5	Strip
Personal occupancy sensor	\$5	Sensor
Vending machine control: non-refrigerated	\$10	Control
Vending machine control: refrigerated	\$25	Control
